The compact and ultra-precise GPS system to track and train your dog with complete confidence.

The CANICOM GPS MINI with **Num'Axes stimulation** is a 2-in-1 system: **long-range location** up to 15 km and **training function** up to 3 km, in a lightweight format designed for small dogs.

- **Location:** range up to 15 km
- **Training:** beep, vibration, stimulation up to 3 km
- **GPS technology:** GPS, GALILEO, BDS, GLONASS
- **Miniaturized necklace:** 164 g (-30%)
- **Remote control:** with electronic compass
- **High-visibility LEDs:** enhanced safety
- **Mobile application:** CANICOM GPS (iOS/Android)
- **Dog status:** sitting, stopping, moving, running
- **Position refresh:** every 3 seconds
- **Waterproof rating:** IP67 (necklace and remote control)
- **Battery life:** up to 25 hours

Real-time GPS tracking up to 15 km

Thanks to its **GPS, GALILEO, BDS, and GLONASS** modules, the **CANICOM GPS MINI** ensures extremely precise location tracking, with **updates every 3 seconds** . It displays the **distance between handler and dog** , **altitude** , **battery** status, and allows you to **track up to 20 dogs** simultaneously.

Distance learning up to 3 km

The **long-range training** function combines **a beep** , **vibration,** and **stimulation** . It can be accessed via the **remote control** or **mobile app** , with customizable settings. A special **pointing dog** function emits a beep or vibration when the dog freezes.

A collar designed for small dogs

Weighing only **164 g** and measuring **73 x 36 x 33 mm** , this collar is **30% smaller** than the **CANICOM GPS 2** collar, while incorporating the same technologies. Its **high-visibility LED** ensures rapid location even in low light.

Robust and intuitive remote control

Featuring a **shatterproof, high-resolution screen** (240 x 320 px), the remote control displays an electronic compass that guides the owner to the dog. It operates on **two 2600 mAh lithium-ion batteries** rechargeable via **a magnetic charger** . Battery life up to 25 hours.

CANICOM GPS mobile app

Compatible with **iOS and Android** , the application offers a **map background (map or satellite)** , **virtual fences** , **location sharing** , **route calculation** , and a **distance learning** function. **Bluetooth reconnection** and **automatic synchronization** ensure seamless use in the field.

Waterproof and rugged design

Both the collar and the remote control are **IP67** certified, guaranteeing complete **protection against immersion** . Shockproof, dustproof, and waterproof, they are suitable for all hunting and hiking conditions.

Complete content for immediate use

The set includes:

- **1 CANICOM GPS MINI collar** with stimulation
- **1 remote control** with long antenna
- **2 magnetic chargers** (USB + mains)
- **2 pairs of electrodes** (short and long)
- **1 wrist strap**
- **1 rigid carrying case**
- **1 user guide**

FAQ

Is this system suitable for small dogs?

Yes, the collar has been miniaturized by 30% compared to the GPS 2 model, for greater comfort and less weight (164 g).

Does the mobile application allow for remote training?

Yes, the training function (beep, vibration, stimulation) is available directly from the CANICOM GPS application.

What is the system's autonomy?

Battery life is approximately 25 hours for both the collar and the remote control, depending on the settings used.
