LE851	ACP Decapper - Lee Precision #AC3993	Vente libre	3.00 € incl. tax

Heavy duty depriming needle for Lee ACP and APP presses.

The **Lee Precision AC3993 decapper** is a **hardened steel** depriming needle designed for heavy-duty use on **ACP** and **APP** presses. It provides effortless depriming, even on dirty cases or crimped primers.

- **Compatibility:** ACP Deprime (91714) and APP Deprime (91588) kits
- **Material:** Hardened steel
- **Type:** Decapping pin
- **Assembly:** Without adjustment, directly on ACP/APP press

Recommended use

The ACP Decapper is designed for professional use with Lee Precision **ACP** and **APP** presses, facilitating **smooth decapping** of casings without lubrication or cleaning.

Technical characteristics

- Product reference: **AC3993**
- Compatible with: ACP Deprime (91714) and APP Deprime (91588) kits
- Material: Hardened steel guaranteed unbreakable
- Type: decapping pin
- Mounting: Attaches to ACP/APP drill without additional adjustment
- Use: suitable for charge folding, high volume of primers

Technical advantages

- Fast, residue-free stripping to **save time**
- Available in **packs of 3** for replacement or heavy duty use
- Extreme robustness - designed to last even on crimped primers
- No lubricant required, reduced maintenance

Legal Compliance & Security

In accordance with European regulations, use reserved for authorized professionals - does not modify the caliber or adapt to other presses.
