A lead-free, powerful and accurate bullet

The **Winchester Extreme Point Copper Impact** in .300 WSM takes the concept that made the Extreme Point lead a success, with a major advantage: a **100% copper** bullet. It retains almost all of its mass after impact, guaranteeing **deep penetration** and a high probability of exit for easy tracking.

The strong points

- **Lead-free warhead** : complies with new regulations
- **Wide polymer tip** : accelerated expansion and maximum energy transfer
- **Monolithic construction** : mass retention close to 100%
- **Versatility** : suitable for medium to very large game
