Controlled stopping power and consistent output for medium game.

Reference ammunition for demanding hunters, offering consistent accuracy and proven effectiveness.

- **Caliber** : .30-06 Springfield
- **Bullet type** : KS (Kegelspitz) conical point
- **Weight** : 165 gr / 10.7 g
- **Initial velocity** : 860 m/s
- **Initial energy** : 3957 J
- **Packaging** : Box of 20 cartridges

An innovative concept for controlled impact

The **DK Double Core** warhead is distinguished by its unique construction: two lead cores of different densities, separated by a tombak capsule. The softer front core ensures **high stopping power** thanks to its controlled fragmentation, while the harder rear core guarantees a **smooth exit** and a straight attrition tunnel.

Ballistic behavior

Designed for **driven** hunts, this cartridge offers moderate recoil and a reliable trajectory. It combines effectiveness on **medium game** with proper preservation of the venison.

Ballistic data

Performance measured with a 600 mm gun:

- **0 m**: 855 m/s - 3911 J
- **50 m**: 803 m/s - 3450 J
- **100 m**: 753 m/s - 3033 J
- **150 m**: 705 m/s - 2659 J
- **200 m**: 658 m/s - 2316 J

- **250 m:** 614 m/s - 2017 J
- **300 m:** 571 m/s - 1744 J

Recommended applications

Ideal for **small game** and **medium game** , this double-core ammunition is particularly recommended for driven hunts, combining safety, power and regularity.

A strategic choice for hunters seeking reliable ballistic performance and uncompromising stopping power.
