A warhead designed for efficiency

The **RWS ID Classic** in 7x64 caliber is renowned for its **high shock effect** and **controlled penetration** . Its double interlocking core combines a soft front, which fragments quickly to dissipate energy, and a harder rear that ensures penetration and regular exit of the bullet.

Ballistic behavior

The nickel-plated liner protects the barrel and allows for **gradual, controlled deformation** , reducing fragment dispersion and preserving the venison. The torpedo-like rear shape provides a stable trajectory, with moderate recoil suitable for both precision and driven shooting.
