Sound moderator called "Over barrel" covering the barrel

The **GOMANDER TACTINOX 5.56 OB** is an **over-barrel sound moderator** designed to partially cover the barrel, allowing for a compact weapon while providing effective sound attenuation on **AR15** platforms.

- **Maximum caliber:** 5.56 / .223
- **Noise reduction:** 25 to 30 dB depending on ammunition
- **Type:** Over Barrel (barrel cover)
- **Overlap:** 60 mm
- **Thread:** 1/2x28
- **Design:** Monolithic single-core
- **Material:** AISI 314 stainless steel

Over Barrel concept: maximum compactness

The **TACTINOX 5.56 OB** features an **over-barrel** design that covers **6 cm** of the front of the barrel. This design limits the overall length of the weapon, an immediate advantage for maintaining a compact and maneuverable platform.

Balance and ergonomics preserved

By distributing some of the suppressor's volume towards the rear, this **sound moderator** reduces the muzzle overhang. The weapon remains balanced, more comfortable to handle, and less tiring during extended sessions.

AR15 compatibility and short handguards

The **TACTINOX 5.56 OB** is particularly well-suited to **AR15s** equipped with a **short handguard** and a long barrel. It can also be partially inserted into the handguard, provided that the handguard

has an **internal diameter greater than 41 mm** .

Monolithic stainless steel design

Machined from **AISI 314 stainless steel** , the **TACTINOX** is designed to withstand high rates of fire. Its **monolithic, single-core** structure guarantees a perfect gas seal and eliminates the risk of cracking or splitting over time.

Effective noise attenuation

Depending on the ammunition used, this model offers a **noise reduction of between 25 and 30 dB** . This performance is consistent with its over-barrel design, providing a real improvement in hearing comfort without unbalancing the weapon.

Finish and accessories included

The **TACTINOX 5.56 OB** features a **black CERAKOTE** coating for protection against wear and corrosion. It comes in a **cardboard box** with a **nylon cover** for transport and storage.

FAQ

Is this silencer compatible with all AR15s?

The **TACTINOX 5.56 OB** is compatible with AR15s chambered in 5.56/.223 with a **1/2x28** threaded barrel. Insertion into the handguard requires an internal diameter greater than 41 mm.

What is the advantage of an over-barrel model?

An **over-barrel silencer** allows for a more compact and better-balanced weapon by limiting the total length of the barrel.

What maintenance is required for the TACTINOX 5.56 OB?

Regular maintenance is sufficient. The monolithic stainless steel design of the **TACTINOX** makes cleaning easy and ensures excellent durability.
