The ideal silencer for AR10s with direct muzzle mounting.

- **Maximum caliber:** .30
- **Noise reduction:** 24 to 28 dB depending on ammunition
- **Mounting system:** Direct mounting (DT)
- **Thread:** 5/8x24
- **Design:** Monolithic single-core
- **Material:** AISI 314 stainless steel
- **Finish:** CERAKOTE Black or FDE

Optimized direct mounting for AR10

The **TACTINOX 7.62 DT** features a direct **5/8x24** muzzle mount. This configuration ensures excellent coaxiality, minimizes mechanical interfaces, and provides a simple, reliable, and durable solution for **AR10** platforms.

Balanced format and preserved maneuverability

With its compact **41mm** diameter, this **sound moderator** maintains a manageable size. The weapon remains balanced, a particularly valuable feature on platforms that are already heavier in **.30** caliber.

Monolithic stainless steel design

Machined from **AISI 314 stainless steel** , the **TACTINOX** easily withstands sustained firing rates. Its **monolithic, single-core** design ensures perfect gas tightness and eliminates the risk of cracking or splitting over time.

Controlled sound attenuation

Depending on the ammunition used, the **TACTINOX 7.62 DT** provides a **noise reduction of between 24 and 28 dB** . This performance is consistent with its direct-fire format, making it ideal for improving hearing comfort without complicating installation.

Reliability and maintenance of the group

The overall rigidity and precise alignment of the **TACTINOX** contribute to **maintaining accurate groupings on target** . The weapon's internal mechanics are also preserved, promoting increased longevity.

CERAKOTE finish and accessories included

Available in **Black** or **FDE** , the **TACTINOX 7.62 DT 5/8x24** features a **CERAKOTE** coating for protection and wear resistance. It comes in a **cardboard box** with a **nylon cover** for transport and storage.

FAQ

Is this silencer compatible with all AR10 platforms?

The **TACTINOX 7.62 DT** is compatible with AR10 platforms chambered in .30 caliber maximum with a **5/8x24** threaded barrel.

What is the difference with a QD LOCK version?

The **DT** version mounts directly onto the barrel, without an intermediate muzzle brake, offering a more compact solution than the **QD LOCK** models.

What maintenance is required for the TACTINOX 7.62 DT?

Regular maintenance is sufficient. The monolithic stainless steel design of the **TACTINOX** makes cleaning easy and ensures excellent durability.
