A QD mount AR9 and PCC sound moderator reducing gas and pressure blowback

- **Maximum caliber:** 9 mm
- **Noise reduction:** 26 to 32 dB depending on ammunition
- **Design:** Monolithic single-core
- **Mounting system:** Proprietary QD LOCK
- **Thread:** M26x1.5
- **Material:** AISI 304/314 stainless steel

QD LOCK system: quick and secure mounting

The **TACTINOX 9L PCC QD LOCK** uses a proprietary quick-release system. It screws directly onto a **GOMANDER muzzle brake** (not included), then locks using an ergonomic lever, easily operated even with gloves or in wet conditions.

Advanced gas management and shooting comfort

Thanks to its vents and internal design, this **sound moderator** redirects gases forward. This design significantly reduces **gas blowback to the shooter's face** and lowers internal pressure, providing immediate comfort during extended shooting sessions.

Reduced recoil and mechanical preservation

Controlled gas management also contributes to a **significant reduction in recoil** . The weapon remains more stable, the internal mechanics are under less stress, and the overall longevity of the platform is improved, particularly on the AR9 and PCC.

Consistent acoustic performance

Depending on the ammunition used, the **TACTINOX 9L** offers a sound reduction of between **26 and 32 dB** . This acoustic efficiency is maintained without compromising the reliability or

consistency of the shots.

Monolithic stainless steel construction

Machined entirely from **AISI 304 and 314 stainless steel** , the **TACTINOX** withstands high rates of fire. Its **monolithic, single-core** design guarantees perfect gas tightness, eliminating the risk of cracking or splitting over time.

GOMANDER Compatibility and Modularity

Its unique **M26x1.5** thread makes it compatible with all **GOMANDER muzzle brakes** . A single suppressor can therefore be used on several firearms up to a **maximum caliber of 9mm** , provided they are equipped with the appropriate muzzle brake.

Finish and accessories included

The **TACTINOX 9L PCC** features a **CERAKOTE** coating for protection and durability. It comes in a **cardboard box** with a **nylon cover** for transport and storage.

FAQ

Is this sound moderator compatible with all 9mm weapons?

The **TACTINOX 9L PCC QD LOCK** is compatible with weapons in 9 mm caliber maximum equipped with a **GOMANDER muzzle brake** with M26x1.5 thread.

Is the muzzle brake included with the silencer?

No, the **GOMANDER muzzle brake** required for QD LOCK mounting is not supplied and must be ordered separately.

What maintenance is required for the TACTINOX?

Regular cleaning is all that's needed. The monolithic stainless steel design of the **TACTINOX** makes maintenance easy and ensures excellent durability.
