A rifle designed for modern sport shooting

Whether you're discovering **clay pigeon shooting** , perfecting your **skeet** technique, or participating in hunting courses, the **Yildiz MX Sporter 12/76 Over-and-Under Shotgun** offers a particularly pleasant balance. Its weight of 3.7 kg helps stabilize the movement while limiting the effects of recoil during long shooting sessions.

76cm barrels for a smooth swing

The 76cm barrels combined with a ventilated rib promote natural target tracking. This configuration is particularly appreciated on fast-moving clay pigeons where consistent movement is essential. The fiber optic front sight also improves visibility and facilitates target acquisition.

Adjustable stock for a customized position

The oil-finished walnut stock features an adjustable cheek piece, allowing the sight line to be adapted to the shooter's physique. This adjustment improves comfort and promotes a consistent sight picture. During extended training sessions, this ergonomic design quickly makes a difference in terms of accuracy.

Seven chokes to adapt to each discipline

Equipped with five internal chokes and two long external chokes, this model allows for precise shot pattern adjustment depending on the type of clay target and shooting distance. This versatility is a real advantage for shooters practicing multiple sporting disciplines.

Reliable mechanics and meticulous finish

The laser-engraved 4140 steel receiver adds both robustness and elegance to the overall design. Automatic ejectors speed up reloading, while the selective single trigger allows for easy selection of the firing order. The entire package inspires confidence from the very first shots.
