Dual Ultra HD video and AI detection, day and night.

The **Num'Axes CAM1073 surveillance camera** combines 4K video, intelligent tracking, solar power and night vision, for high-performance autonomous surveillance.

- **Video resolution:** 4K Ultra HD
- **Dual CMOS lens:** panoramic + zoom
- **Rotation:** 355° horizontal / 90° vertical
- **Optical zoom:** 4× to 10×
- **AI detection:** intelligent human tracking up to 45 m
- **Night vision:** color (50 m²) or infrared (40 m)
- **Two-way audio:** built-in microphone and speaker
- **Long-range Wi-Fi:** up to 80 m
- **Power supply:** 9W solar panel + 20,000 mAh batteries
- **Waterproof rating:** IP65 - suitable for outdoor or indoor use
- **Mounting:** wall or ceiling
- **Mobile application:** NIVIEW (iOS / Android)

Dual simultaneous video in 4K Ultra HD

Thanks to its **two 4 MP CMOS lenses** , the **CAM1073** enables dual-stream live viewing: a **wide-angle panoramic** view and a precise **close-up** , all in **Ultra HD 4K** . From your smartphone, you can monitor the entire scene and critical details at a glance.

Motorized pan rotation and optical zoom

The camera **rotates 355° horizontally** and **tilts 90° vertically** , providing near-total coverage of the environment. Its motorized **10x optical zoom** allows you to precisely target a suspicious area or movement without any loss of image quality.

Intelligent human detection and automatic tracking

Equipped with an **artificial intelligence** algorithm, the camera identifies humans within a **120°** field of view and automatically adjusts its viewing angle to track them. The **detection distance is adjustable** up to 45 meters, for customized protection.

Color or infrared night vision

Depending on your needs, you can activate **color** vision via **white LED flashes** (up to 50 m²), or discreet **infrared** vision (up to 40 m). This flexibility allows for effective surveillance, regardless of lighting conditions.

Two-way audio and built-in alarm

Equipped with a microphone and speaker, the camera offers an **intercom function** for remote communication. A **sound and light alarm** can also be triggered manually or automatically to deter any intrusion.

Enhanced solar autonomy

The included **9W solar panel** recharges the **integrated 20,000 mAh batteries** , ensuring autonomous operation even without a mains connection. An ideal solution for remote sites or outdoor installations.

Wall or ceiling installation

The **CAM1073** adapts to your field configuration: it can be **mounted on the wall or ceiling** , indoors or outdoors. It comes with everything you need: wall bracket, antennas, screws, hex key and USB-C cable.

Mobile app and long-range connectivity

With the **NIVIEW** app (iOS/Android), control the camera remotely, receive alerts, and access the live video feed. **Long-range 2.4 GHz Wi-Fi** ensures a stable connection up to 80 meters.

FAQ

Does the camera work without being plugged into the mains?

Yes, thanks to the supplied 9W solar panel, the camera recharges its 20,000mAh batteries and can operate in complete autonomy.

How does nighttime surveillance work?

Two options are available: color night vision (white LED flash up to 50 m²) or infrared (range of 5 to 40 m).

Can it be easily installed without a technician?

Yes, installation is simple thanks to the included accessories (wall bracket, screws, hex key) and the NIVIEW app makes setup easy.
