Dual Ultra High Definition videos and intelligent detection, day and night.

A robust 4K Wi-Fi camera to effectively monitor your spaces, even without mains power thanks to the integrated solar panel.

- **Dual CMOS cameras:** 4K Ultra HD for simultaneous panoramic and close-up views
- **Pan/Tilt/Zoom Rotation:** Pan, tilt 90°, 4× to 10× optical zoom
- **Night vision:** color (white flash up to 50 m²) or infrared (5 to 40 m)
- **Human Detection & AI Tracking:** 360° angle, adjustable range up to 45m

Autonomous and ultra-precise monitoring, day and night

Designed for security professionals, farmers, or demanding outdoor enthusiasts, this motorized camera offers you **complete visual coverage** thanks to its dual 4 MP CMOS lens. From your smartphone, control a **dual-stream video** in real time: a wide-angle panoramic view for the entire scene, and a close-up for crucial details.

Smart detection and automatic tracking

Thanks to its **artificial intelligence algorithm**, the camera identifies human movements and triggers automatic tracking within a 120° field. Its detection range is adjustable up to 45 meters, for customized surveillance. Everything is managed remotely via the free **NIVIEW** mobile application, compatible with iOS and Android.

Motorized optical zoom

The **4x to 10x optical zoom** allows you to observe details without loss of sharpness, essential for identifying an individual or a vehicle. It is motorized and integrates perfectly with the rotation and tilt functions for precise framing.

Extended pan and tilt rotation

The motorized head **rotates 355°** and **tilts 90°** , allowing for a complete scan of the monitored area. This flexibility is ideal for open environments such as yards, warehouses or agricultural areas.

Color or infrared night vision

Night mode offers two options: **color vision** with white LED flashes illuminating up to 50 m², or **discreet infrared** with a range of up to 40 m. This gives you effective 24/7 surveillance, regardless of lighting conditions.

Built-in two-way audio

Equipped with a microphone and speaker, the camera enables real-time **remote communication** . Speak, listen, interact, or deter directly through your smartphone.

Powerful solar power supply

The **included 9W solar panel** powers the built-in 20,000mAh batteries, ensuring extended battery life even without a mains connection. Ideal for remote locations or those without a power grid.

Multipurpose installation

The camera can be mounted vertically (wall) or horizontally (ceiling), depending on the terrain constraints. It comes with a **metal bracket, antennas, screws and a hex key** for quick and secure installation.

Waterproofing and robustness

IP65 certified, this camera is resistant to rain, dust and extreme temperatures. A reliable solution for **year-round outdoor use** .

Long-range connectivity

Equipped with a **long-range 2.4 GHz Wi-Fi** module, the CAM1073 offers a stable connection up to approximately 80 m. Perfect for large properties or agricultural installations.

A complete solution for standalone video surveillance

The Num'Axes CAM1073 camera offers a wealth of technology in an easy-to-install format. Robust, connected, intelligent, and autonomous, it's an ideal solution for professionals looking for a complete, wireless, and uncompromising surveillance system.
