With this **M4A1 RIS2 GBBR Daniel Defense** , Double Eagle offers a replica designed for demanding players who appreciate realism and authentic feel. From the first time you pick it up, you'll appreciate the solidity of the full metal body, the smoothness of the mechanism, and the crisp, immersive bolt recoil.

The 14-inch anodized bronze handguard adds a striking aesthetic touch, while offering exceptional modularity thanks to its marked RIS rails. The MWS-type gas system ensures consistent firing and excellent compatibility with Tokyo Marui magazines and parts, allowing for easy maintenance and upgrades.

A realism by Daniel Defense

Every detail of this replica has been meticulously designed to faithfully reflect the original: precise engravings, an ergonomic stock stamped with the Daniel Defense logo, a textured grip, and a metallic flash hider. The visual appeal and the feel in the hand immediately inspire confidence, whether for training or immersive gameplay.

GBBR performance and sensations

The blowback system provides a crisp, responsive firing feel, enhancing the realistic experience without compromising stability or accuracy. In the field, the M4A1 RIS2 impresses with its consistency, effective range, and adaptability to all types of configurations thanks to its modular rails.

FAQ

Is the replica compatible with Tokyo Marui MWS magazines?
Yes, this GBBR version is designed on an MWS type technical basis and accepts Tokyo Marui magazines.

Is the handguard removable?
Yes, it is mounted on a standard RIS system and can be replaced or customized.

Which gases do you recommend?
A medium-quality gas at high pressure depending on the ambient temperature, to ensure a good cycle and a regular blowback.

Does the replica come with a magazine?
Yes, a 35-round MWS-type polymer magazine is included.

What are the advantages of a GBBR system?
The realism of the firing cycle, the mechanical feel of the blowback, and the compatibility with numerous upgrade parts.
