Realistic reflections to simulate the tranquility of a group of ducks sitting still.

The **MOJO Flock A Flicker 2** is a set of ultra-fast spinning wing decoys designed to mimic the natural visual flashes emitted by ducks on the water or ground.

- **Type:** Electronic spinning wing lures
- **Format:** Pack of 4 self-contained units
- **Use:** Wetlands or dry land
- **Rotation:** Random movements with time delay
- **Battery life:** Up to 30 hours
- **Power Supply:** 3 AA batteries per unit (not included)

Realistic reflections for posed ducks

The **MOJO Flock A Flicker 2** is designed to simulate the natural visual effect observed in a **resting duck pose** . These reflections of light, emitted by rotating white and brown wings, reassure approaching birds. Each module operates independently, with a built-in **random timer** , creating a very believable desynchronized dynamic.

Reinforced design for greater longevity

This improved model features a **larger, gently sloping housing** , **enhanced sealing** at the motor shaft, and a **twist-lock lid** with a heavy-duty gasket. **Side and bottom grommets** allow for the addition of lines or anchors, with integrated clips for storing lines after use.

Ease of use in the field

The **two-sided magnetic fins (white/brown)** are easy to install and remove. The soft-touch button allows easy activation even with gloves in cold conditions. Battery replacement is quick thanks to the **integrated grip zones** on the cover.

- **Number of modules:** 4 autonomous lures
- **Technology:** Fast Random Effect Rotation

- **Use:** Wet environments or dry land
- **Wings:** Magnetic, reversible white/brown
- **Fastenings:** Eyelets + integrated storage clips
- **Battery life:** Up to 30 hours with 3 AA batteries (not included)
