SKU	Designation	French Law	MSRP
A50901	Diamond Sharpening Units / 600-1000	Vente libre	59.00 € incl. tax

Two grits in one for precision sharpening and a razor-sharp finish.

A two-in-one accessory for greater efficiency

These **abrasive rods** are designed to replace or complement the sharpening units of the **V-Sharp Classic II** and **A4** models. Unlike standard rods, which have a diamond side and a polishing steel side, these rods incorporate two separate grits: **600 grit** for fine sharpening and **1000 grit** for finishing and razor sharpness.

Progressive and even sharpening

The combined use of these grains allows for more precise sharpening, ideal for **high-end kitchen** knives, **hunting blades** or **outdoor knives** . The gradual transition from 600 to 1000 grit ensures a smooth and long-lasting result.

Easy to install and use

Like other V-Sharp rods, these units quickly attach to the sharpener and are ready to use. They can be used at the 15°, 20°, 25°, or 30° angles set by the V-Sharp sharpener for consistent sharpening.

- **Compatibility:** V-Sharp Classic II and A4 sharpeners
- **Grains:** 600 (fine) and 1000 (very fine)
- **Function:** Precision sharpening and finishing
- **Installation:** Simple and quick
- **Recommended use:** Kitchen, hunting, fishing, outdoor knives
