## High density tungsten and extreme power for successful long-range shots from the gabion.

The **MARY ARM Xtrem 50 Super Magnum** cartridge combines speed, density and optimal grouping for long-range shots on waterfowl.

- **Caliber** : 12/89
- **Type** : Super Magnum Tungsten
- **Load** : 50 g of tungsten spherical beads
- **Speed** : > 400 m/s
- **Energy** : very high at short/medium distance
- **Wadding** : skirt, for concentrated sheaf
- **Packaging** : box of 10 cartridges
- **Compatibility** : 89mm chambered shotguns, Steel Shot 1320 bar proofed

### Xtrem 50 Super Magnum cartridge: the choice of discerning waterfowl hunters

The **MARY ARM Xtrem 50 Super Magnum in 12/89 gauge** is designed to meet the specific needs of waterfowl hunters in wetlands. Its exceptional **50g spherical tungsten** load offers unparalleled lethality even beyond 50 meters.

- **High-density tungsten** : 60% denser than steel for energy retention over long distances
- **Initial velocity > 400 m/s** : excellent trajectory tension and immediate impact
- **Concentrated shot pattern** thanks to a wad skirt perfectly suited for long-range shooting
- **Full compliance** with wetland legislation (lead-free cartridge)
- **Compatibility** : only in 89mm chambered shotguns, Steel Shot proofed to 1320 bar

Designed for the most demanding shots, the Xtrem 50 guarantees precision and power when hunting from a gabion, in the bay or on open plains.

**FAQ - Your frequently asked questions about the Xtrem 50 Tungsten**

- **Is this cartridge compatible with all rifles?**
  No, only with shotguns chambered for 89 mm and proofed Steel Shot 1320 bar.
- **What is the effective range of this cartridge?**
  It allows for effective shots beyond 50m, depending on the conditions.
- **Can this cartridge be used in a humid area?**
  Yes, it is fully compliant thanks to its lead-free (tungsten) filling.
- **What is the difference between tungsten and steel?**
  Tungsten is much denser, therefore more lethal at the same distance.
