Irresistible movement and built-in sound: the ultimate visual and audible call for predators.

The **MOJO Super Critter** is a new generation electronic lure, specially designed to attract **predators** with striking realism.

- **Rotary movement** with magnetic topper
- **Built-in sound effect** (rabbit cry)
- **Retractable tripod legs** for optimal stability
- Ultra-resistant **ABS shell**
- **Battery life** up to 20 hours with 4 AA batteries (not included)

MOJO Super Critter: The best visual and audible predator lure

The **MOJO Super Critter** pushes the boundaries of realism in electronic decoys. Designed to appeal to the hunting instincts of **foxes** , **corvids** , and other **predators** , it combines a hypnotic spinning motion with a **built-in sound** (rabbit cry) to increase its effectiveness tenfold.

- **Quiet motor** and removable topper for realistic movement
- **3.5mm auxiliary connection** compatible with most sound trap remotes
- **3-position switch** : off / movement only / movement + sound
- Can be mounted on a tripod, stake or screw with 1/4" thread
- **Removable faux fur** for optimal camouflage in the decor

The **Super Critter** runs on 4 AA batteries (not included) and can stay active for up to **20 hours** , making it a reliable ally for all your regulation sessions.

With its robust design, compact size and **dual sensory stimulation** , this lure is the ideal tool for trappers and territory managers keen to maximize their efficiency.

Important: The use of electronic lures must be carried out in strict compliance with local regulations on the regulation of harmful species. Check with your local hunting federation or the relevant DDT.

Choose MOJO performance and make a difference on the field.
