The perfect illusion of wounded prey to realistically attract foxes and carnivores.

Compact and fearsomely effective, the **MOJO Fuzzy Critter** attracts the attention of **predators** with its erratic movements and realistic fur.

- **Synthetic fur** imitating wounded prey
- **Cyclic motorized movement** for increased realism
- **Battery life** : up to 20 hours with 4 AA batteries (not included)
- 3.5mm **auxiliary port** for external remote control
- **Waterproof and compact structure** , easy to carry

MOJO Fuzzy Critter: The visual decoy to attract the most wary predators

The **MOJO® Fuzzy Critter** is a **motorized predator decoy** designed to simulate wounded prey. With its **realistic synthetic fur** and **irregular cyclical movements** , it instantly captures the attention of **foxes** , **corvids** and other carnivores.

- **Intermittent movement** for added realism and attractiveness
- **Striking visual effect** : distracts the hunter or trap
- **3.5mm auxiliary port** for remote control
- **Waterproof housing** suitable for harsh environments
- **Powered by 4 AA batteries** for **long battery life** (up to 20 hours)

Its **compact and lightweight design** allows for easy transport and quick setup. The robust **Fuzzy Critter** is the ideal tool for improving the effectiveness of your regulation sessions within a legal framework, whether you are a hunter, licensed trapper, or land manager.

Reminder: The use of decoys is strictly regulated in France. Refer to the texts in force in your department (trapping or regulation by prefectural decree).

Trust **MOJO** to optimize your results in the field with simple, proven technology.
