- **Body:** Full metal with Daniel Defense markings
- **Firing modes:** Safe / Semi / Auto
- **Operation:** Gas (GBBR)
- **Magazine:** 40 rounds, polymer
- **Hop-up:** Adjustable
- **Stock:** Adjustable
- **Sights:** Retractable and removable
- **Colors:** Black, Tan

The DDM4 V7S Golden Eagle is a full-metal GBBR replica, branded Daniel Defense, designed for players seeking realism and robustness. In practice, it's designed to keep up with the pace of milsim while remaining suitable for CQB thanks to its compact length and adjustable stock, combining ergonomics and functionality.

Technical specifications and performance

The Golden Eagle DDM4 V7S **GBBR replica** offers realistic performance thanks to its **full metal body** and gas-powered system. The **adjustable hop-up** allows you to optimize range and

accuracy depending on the BB type and gas pressure. The 40-round polymer magazine provides ample capacity for milsim scenarios.

Compatibility and ergonomics

The replica accepts standard rail-mounted accessories, allows for the mounting of optics and lasers, and retains removable sights for customization. The adjustable stock improves comfort for players of all sizes.

Maintenance and safety

Regular cleaning of the hop-up and lubrication of moving parts are recommended.

FAQ - Daniel Defense DDM4 V7S Golden Eagle GBBR Replica

How powerful is this replica and is it legal?
The power output depends on the type of gas used and the internal settings. In Europe, the legal limit is set at a maximum of 2 joules for recreational use. Ensure your replica complies with this regulation before using it.

What type of gas should be used for proper operation?
This replica uses GBBR gas such as Nuprol 4.0. For consistent performance, choose a gas suitable for the temperature to ensure optimal power and range in all seasons. Using the gas recommended by Golden Eagle guarantees reliability and longevity. Never leave the replica in direct sunlight during periods of high heat, as this can cause irreversible damage to the replica or its magazine.

What maintenance is recommended for this model?
Clean the barrel and hop-up regularly, and lightly lubricate moving parts and seals with silicone oil. Regular maintenance extends the life of your replica and maintains its accuracy.

Are the chargers compatible with other models?
The included 40-round magazine is designed for this Golden Eagle GBBR platform. Some magazines from other models may be compatible, but it is advisable to verify exact compatibility before purchasing additional magazines.

Can accessories be mounted on this replica?
Yes, the DDM4 V7S is equipped with standard Picatinny rails, compatible with most optics, lights, and tactical grips. The stock sights are retractable and removable, offering complete customization.

What are the differences between the available colours?
The **Black** and **Tan** versions are technically identical. The choice depends on the desired style: black for simplicity and discretion, tan for a more realistic look in arid or desert environments.
