M-LOK remote control for Skywoods tactical flashlight.

The **Skywoods Switch** is a remote switch designed to optimize the use of **L7019A** and **Orghini L70192** lamps in tactical situations or in the field.

- **Compatibility: Skywoods L7019A** and **L70192** lamps
- **Mounting: M-LOK rail**
- **Control: Double button** (press and hold)
- **Connection:** Interface via screw-on lamp holder
- **Material:** Reinforced polymer and metal
- **Cable length:** Approximately 20 cm

Remote control for optimal control

The **Skywoods remote switch** allows you to quickly activate your tactical light without changing your grip. Mounted on an **M-LOK** rail, it integrates perfectly into your setup for intuitive and silent operation, even in stressful or emergency situations.

- **Mounting:** Standard M-LOK rail
- **Buttons:** Hold / momentary pressure

Robust design and simple installation

Made from **engineering polymer** and metal, the control module is shock and moisture resistant. Connection to the lamp is made by replacing the rear cap with the supplied threaded module. No special tools are required for installation.

- **Materials:** High-density polymer and metal connectors
- **Connection:** Threaded screw on Skywoods lamp stem

Perfectly compatible with Skywoods models

This switch is designed exclusively for the **Skywoods L7019A** and **Orghini L70192** models. It ensures optimal lamp responsiveness while providing quick access to lighting modes, including strobe mode.

- **Supported models:** L7019A / Orghini L70192
- **Available modes:** Steady light / Strobe

FAQ

Is this switch compatible with other brands of lamps?

No, this model is designed exclusively for **Skywoods L7019A** and **L70192** lamps.

How is the module attached to the lamp?

It replaces the lamp's rear cap via a secure thread and connects automatically.

Is the cable flexible enough to fit my setup?

Yes, the cable is flexible and of a suitable length for mounting on a rifle or tactical replica.
