- **Stock:** NSR retractable 6-position
- **Sights:** Flip-Up Faxon
- **Color:** Black
- **Included accessories:** 9.6V NiMH battery + mains charger

Tactical realism and optimized range

Ideal for games in wooded areas, open CQB, or complex tactical zones, this 12" replica offers a rare balance between **maneuverability** and **accuracy on the move** . The **12" M-Lok** metal handguard allows for easy attachment of accessories while providing excellent rigidity for

supported shots. The full-length **Picatinny** top rail allows for the installation of compact optics, red dots, or short scopes, depending on your preference.

Gearbox Gen2 and onboard electronics

The heart of the replica incorporates a **full-metal V2 gearbox** optimized by the **ETU Gen2** (Electronic Trigger Unit) system, which offers a rapid trigger response and motor protection against overvoltage. The reinforced piston limits compression loss, ensuring a stable rate of fire even during intensive use. The internal mechanics are compatible with **standard M4 AEG** upgrades.

High stability rotating hop-up

The large-diameter **rotating hop-up** unit allows for precise and reliable adjustments, even during gameplay. Combined with the **320mm 6.03mm** precision barrel, it ensures a flat trajectory with reduced dispersion. The MK2 12" is designed to work ideally with **0.25 to 0.28g BBs** , perfect for outdoor play.

Comfort and adaptability on the field

The **NSR's 6-position retractable** stock adapts to all body types and playing styles. Lightweight yet robust, it features an ambidextrous QD sling attachment point. The textured motor grip provides excellent traction, even in wet conditions. The package includes everything you need to start playing right out of the box: **a 9.6V battery** , **charger** , **cleaning rod** , and mid-cap magazine.

FAQ

What BBs should I use with this AEG replica?

0.25g or 0.28g BBs are recommended to optimize accuracy and range.

Are the battery and charger included?

Yes, the pack includes a 9.6V NiMH battery and a 220V mains charger.

Is this model compatible with other M4 accessories?

Yes, the MK2 12" is based on a standard M4 AEG platform compatible with most accessories and upgrades.
