Classic lever action in .45-70 caliber, premium anti-corrosion finish.

The **Davide Pedersoli** “Guidemaster?X” long-range shotgun combines historic lever action with modern materials for demanding use.

- **Caliber:** .45?70 Gov.
- **Capacity:** 5+1 shots
- **Stripes:** 6
- **No scratch:** 460 mm (i.e. 1:18)
- **Barrel Length:** 483 mm (19?)
- **Total length:** 950 mm (37 7/16?)
- **Fiber optic handlebar and handlebar**
- **Thread:** 5/8x24
- **Weight:** 3,500 kg
- **Finish:** Anti-corrosion treated metal components + technopolymer stock with adjustable cheek.

Designed for demanding lever-action rifle enthusiasts, this model is suitable for semi-technical "outdoor" use while respecting the legal conditions of hunting in France. It is particularly excellent for hunting big game, in humid or demanding environments.

Durable anti-corrosion finish

The special finish applied to the metal components (rocker, fuel tank tube, lever, hammer, etc.) guarantees better resistance to oxidation. The brand emphasizes that this is the only version of the Boarbrer series to benefit from this treatment.

.45-70 Govt caliber and 19-inch barrel

This historic caliber offers wide ammunition availability and good power for big game hunting. The 483 mm barrel, threaded in **5/8x24** with a **protection ring**, allows the mounting of a muzzle brake or sound moderator. The barrel is topped with a **Picatinny rail** and has a **rear sight** and a **fiber optic front sight**.

Lever action inspired by the 1886/71 model

The "86/71 Lever Action" mechanism is inspired by the revised 1886 version, offering smooth, fast and reliable operation. A great reference for lever-action weapon enthusiasts.

Technopolymer stock and adjustable cheekpiece

To modernize the whole, the technopolymer stock/forend offers an aesthetic relief effect and an adjustable cheekpiece to optimize the eye with sights or a scope. The design makes the weapon lighter and better equipped than traditional versions.

Practical use and practical application

Imagine yourself on a lookout in the early morning, in a wet or marshy area: thanks to the anti-corrosion finish and the adjustable stock, this rifle remains reliable even in difficult conditions. Its .45-70 Govt caliber allows the use of a wide range of projectiles, which is an advantage for users looking for a versatile and durable product.
