## Safe powder-free shooting with round ball and 209 primer in .45LC or .38SP.

**Pedersoli indoor brass cases** are designed for **shooting with round balls and primers only** , in **.45 Long Colt** or **.38 Special** caliber, without the use of powder.

- **Quantity:** box of 25 sockets
- **Calibers available:** .45 Long Colt or .38 Special
- **Use:** round ball + 209 primer (without powder)
- **Material:** Machined brass
- **Compatibility:** Long-barreled firearms chambered in .45LC / .38SP

### Primer firing only, without powder

Each case features an **internal flame channel** that directs the primer's energy to the bullet. This allows a polymer round ball to be propelled at short range without the use of powder. This configuration significantly reduces noise, recoil, and residue, resulting in a clean and safe shooting experience.

- **Calibers:** Available in .45LC and .38SP
- **Primer:** type 209 (not supplied)
- **Use:** training shooting, demonstration or indoor shooting

### Compatible with revolvers and long-barreled rifles

Pedersoli indoor cartridges are ideal for **black powder revolvers or rifles** with long barrels. Reloading is done by hand without complex tools, and the spent primer is easily removed using a **2.5 mm punch** (not included).

- **Extraction:** manual, using a pin punch
- **Reuse:** refillable sockets

**Safety and maintenance**

These cases **must never be used with black or smokeless powder** . Keeping the **internal channel clean** is essential for optimal performance. They are intended for use with primers and round balls only.

**FAQ**

- **Can they be used with powder?**
  No, they are strictly designed for use without powder, only with 209 primer and round ball.
- **Are these sockets reusable?**
  Yes, they can be recharged several times if they are well maintained.
- **Are the two calibers sold together?**
  No, each box contains 25 cases of a single caliber: either .45LC or .38SP.
