A takedown format to optimize transport and storage

Thanks to its "Takedown" system, this rifle can be quickly disassembled into two parts - barrel and stock - for discreet transport or easy storage. Going to the shooting range by motorcycle? Disassemble your weapon into two parts and pack it in a backpack.

Corner ejection: safety and ergonomics

The **angle ejection** system expels cases downwards, limiting projections towards the user and improving ergonomics in confined environments or during rapid handling.

.44 Magnum power and controlled precision

The **.44 MAG** caliber is robust, with an 8+1 round capacity, delivering proven power in a rifle format. The 47 cm barrel ensures good aiming and better accuracy than a handgun, while keeping the overall length down.

Adjustable synthetic stock and tactical finish

The black composite stock features an **adjustable cheek rest** , allowing for easy adjustment of the sight picture and shooter comfort. The threaded barrel and accessory rails further enhance the tactical style.

FAQ

- **Is this a suitable model for long-range shooting?**
  No, this model is primarily designed for dynamic or recreational use with power, rather than ultra-long-distance shooting.
