Precise micrometric adjustment for Winchester 1886 rifles.

Precision **adjustable rear sight** designed for **Winchester 1886** and Browning rifles. Offers fine click adjustments and a low profile for optimal alignment.

- **Compatibility:** Winchester 1886 / Browning
- **Adjustment:** ¼ MOA clicks, graduated elevation
- **Material:** Black anodized aluminum
- **Two eyecups:** 1/2"x.093" and 5/8"x.040"
- **Package weight:** 0.045 kg
- **Package dimensions:** 109 x 51 x 51 mm
- **Function:** quick release + zero return

Ideal for improving accuracy without modifying the firearm, this tang sight mounts directly onto the receiver of a **Winchester 1886** or a compatible Browning model. It guarantees a low and stable sight line, essential for consistent and instinctive shooting.

Ultra-precise micrometric adjustment

The **66WB** model allows for audible **¼ MOA** adjustments for elevation and windage. The cursor, engraved in 3-minute increments, provides excellent visual reference. Every click counts, and you can feel it immediately in use.

Quick release and return to zero

Thanks to its **quick-release** function, removing the slider requires only the push of a button. An integrated locking screw allows you to quickly return to your initial setting. This system is particularly useful for shooters who practice multiple distances or disciplines.

Sturdy and lightweight construction

Machined from **black anodized aluminum** , the rear sight offers an excellent strength-to-weight ratio. Its matte finish minimizes glare while ensuring perfect discretion in the field. It comes with two interchangeable apertures to suit your shooting style.

FAQ

- **Is this sight compatible with modern rifles?**
  It is designed for **Winchester 1886** and certain **Browning** rifles with compatible receivers.

- **Can the eyepiece be changed?**
  Yes, two models are included: one of **12.7 mm** and one of **15.8 mm** .
- **Is it easy to assemble?**
  The unit is mounted directly onto the case using the screws provided. Precise adjustment is recommended.
