Compact, robust and precise: ideal for all reloaders.

Compact and robust **single-station press** by **Lyman** , ideal for beginners and experts alike. Cast iron construction, compatible with all standard 7/8x14 tools.

- **Structure:** Sturdy cast iron frame
- **Aperture:** 98 mm (3.700")
- **Compatibility:** 7/8x14 tools and standard shell holders
- **Use:** pistol and rifle cartridges
- **Design:** Ambidextrous with central lever and ball handle
- **Ram:** 25.4 mm (1") diameter with reduction connecting rod
- **Weight:** 6.3 kg

The **Brass-Smith Ideal Press** is a compact yet remarkably efficient single-station press. Its cast iron frame combined with steel mechanics provides excellent stability, even when resizing heavy cases. It's an ideal solution for starting out in reloading or as a secondary press dedicated to a specific operation.

cast iron structure and reinforced mechanics

The **cast iron** frame is built to last. With its **1-inch diameter cylinder** and **leverage connecting** rod, pressure is transmitted effortlessly for smooth operation, even on long sockets.

Fully compatible with your tools

It accepts all **7/8x14 threaded tools** , as well as standard shell holders on the market. Its large **98mm** opening allows it to handle both pistol calibers and long cartridges up to 3.700" (such as .30-06 or similar).

Ambidextrous and ergonomic design

The **central lever** is suitable for both right- and left-handed users. Its spherical handle provides a comfortable grip, even after several hours of use. Its compact size makes it an excellent choice for small workspaces.

FAQ

- **Is it compatible with all reloading tools?**
  Yes, all tools with a **standard 7/8x14 thread** are compatible, regardless of the brand.

- **Can long cartridges be refilled?**
  Yes, up to **3.700" overall length** , which covers the majority of standard rifle calibers.
- **Is it suitable for left-handed people?**
  Yes, its central lever makes it **ambidextrous** without any modification required.
