Secure fastening and stable adjustment for your reloading tools.

Slotted **locking ring** made of steel for **7/8x14** threaded tools. Compatible with all standard tools, it allows for precise locking without damaging the threads.

- **Thread:** 7/8x14 inches
- **Material:** Machined steel
- **Fixing:** by side screw (slot)
- **Use:** blocking reloading tools
- **Compatibility:** Universal for all standard tools

The **Lyman Split Lock Ring** is a simple yet remarkably effective locking ring. Machined from steel, it securely holds your reloading tool in place while allowing for easy adjustment. Its split design with locking screws protects the threads and ensures a reliable, long-term hold.

Unconstrained stability

Thanks to its lateral screw, this ring allows for **precise tightening** without excessive force. It prevents accidental adjustments and ensures **repeatability of settings** , even after disassembly.

Universal compatibility

Designed to the **7/8x14** standard, it is compatible with all standard reloading tools, regardless of brand. An essential tool for equipping or complementing any single-stage or turret press.

FAQ

- **Is it compatible with tools from other brands?**
  Yes, the ring is suitable for all tools with a **7/8x14 thread** .
- **Can it be moved without changing the setting?**
  Yes, the locking screw maintains the setting even when disassembled.
- **Is a tool required for tightening?**
  Yes, an **Allen key** is needed to tighten the side screw.
