Constant powder charge for black powder reloading.

Davide Pedersoli brass powder measure, calibrated for precise pouring of black powder. An essential accessory for antique firearm shooters wishing to load according to traditional measurements.

- **Fixed dosage:** The number on the spout indicates the capacity
- **Material:** polished brass
- **Compatibility:** Pedersoli powder flasks
- **Use:** black powder weapon - percussion / flintlock
- **Manufacturer: Davide Pedersoli**

This Pedersoli **brass dosing nozzle** allows for precise measurement and pouring of black powder. It attaches to the end of a compatible powder flask and enables **quick, consistent, and secure loading** .

Predefined and regular dose

With its calibrated volume, this nozzle avoids dosing errors, thus ensuring **stable pressure** and consistent shooting behavior, essential for black powder shooters.

Traditional brass manufacturing

Made from **solid brass** , the spout combines durability, aesthetics, and compatibility with the brand's accessories. It is the perfect complement to a historical shooting or target range.

Quick and easy assembly

This model fits on **Davide Pedersoli threaded powder flasks** . It can be easily replaced to change the charge as needed (30, 45, 60 grams...).

FAQ

- **Can this nozzle be used with modern gunpowder?**
  No, it is exclusively intended for **black powder or substitutes** .
- **Is it compatible with all pears?**
  It is designed for threaded **Pedersoli powder flasks** .

- **Can the dose be easily changed?**
  Yes, you just need to screw on a nozzle calibrated differently depending on the desired load.
