### Constant powder charge for black powder reloading.

**Davide Pedersoli brass powder measure**, calibrated for precise pouring of black powder. An essential accessory for antique firearm shooters wishing to load according to traditional measurements.

- **Fixed dosage:** The number on the spout indicates the capacity
- **Material:** polished brass
- **Compatibility:** Pedersoli powder flasks
- **Use:** black powder weapon – percussion / flintlock
- **Manufacturer:** Davide Pedersoli

This Pedersoli **brass dosing nozzle** allows for precise measurement and pouring of black powder. It attaches to the end of a compatible powder flask and enables **quick, consistent, and secure loading**.

#### Predefined and regular dose

With its calibrated volume, this nozzle avoids dosing errors, thus ensuring **stable pressure** and consistent shooting behavior, essential for black powder shooters.

#### Traditional brass manufacturing

Made from **solid brass**, the spout combines durability, aesthetics, and compatibility with the brand's accessories. It is the perfect complement to a historical shooting or target range.

#### Quick and easy assembly

This model fits on **Davide Pedersoli threaded powder flasks**. It can be easily replaced to change the charge as needed (30, 45, 60 grams...).

#### FAQ

- **Can this nozzle be used with modern gunpowder?**  
No, it is exclusively intended for **black powder or substitutes**.
- **Is it compatible with all pears?**  
It is designed for threaded **Pedersoli powder flasks**.
- **Can the dose be easily changed?**  
Yes, you just need to screw on a nozzle calibrated differently depending on the desired load.
