Fast and ultra-precise automatic priming with depth adjustment.

Lyman Accu-Prime™ Auto-Load automatic table primer , designed to guarantee consistent, fast and perfectly controlled priming thanks to a **patented adjustable depth punch** and a smooth linear feeding system.

- **Type:** Automatic bench primer
- **Control:** side lever with smooth-moving cam
- **Adjustment:** Adjustable priming depth
- **Power supply:** starter tubes on linear rails
- **Compatibility:** all standard shellholders
- **Patent:** priming punch with stop on case base

Designed for heavy-duty reloaders and professional workshops, the **Accu-Prime Auto-Load** is one of the most precise tools on the market. It guarantees **consistent priming** , without variation due to rim thickness, thanks to a **punch that stops on the actual base of the case** .

Micrometric adjustment of primer depth

Unlike conventional systems, this model uses a **patented punch** that butts against the base of the case. This allows for **complete control of the priming depth** , guaranteeing consistent and reliable shots, even with cases of different makes or ages.

Smooth and consistent linear power supply

The primer tubes are mounted on a **linear rail** , ensuring smooth primer distribution. This system reduces incidents and increases the production rate without compromising consistency.

Side lever and soft cam

The side lever activates a **cam system** that optimizes the punch movement: reduced effort, rapid return, controlled feel. Ideal for long reloading sessions.

Universal compatibility

The tool accepts all **shellholders** regardless of brand. No proprietary adapter required.

FAQ

- **Is this system compatible with all types of primers?**
  Yes, it works with **all standard diameters** , depending on the feed tube used.
- **Can the depth be precisely adjusted?**
  Yes, the punch is **fully adjustable** , for perfectly controlled penetration.
- **Are specific shellholders required?**
  No, the Accu-Prime Auto-Load is **compatible with all standard shellholders** (Lyman, RCBS, Lee, Hornady...).
