Change caliber in one easy step on your Pedersoli bullet lubricator.

Interchangeable insert for **bullet greaser** compatible with **Pedersoli** tools. It allows adaptation to several **caliber projectiles** for black powder shooting or homemade ammunition production.

- **Compatibility:** Pedersoli grease fittings
- **Material:** Machined steel
- **Available calibers:** .400, .445, .450, .459, .500, .540, .547, .577, .580
- **Usage:** quick and tool-free change

A versatile tool for demanding reloaders

Designed for shooters using multiple **calibers of ammunition** , this insert transforms a single oiler into a multi-caliber station. Whether you're using hunting rifle or black powder pistol ammunition, this insert simplifies your operations and saves you time.

Quick and tool-free installation

Assembly is achieved by simply snapping or screwing, depending on the grease fitting model. No special adjustments are required: simply choose the insert that fits your gauge. This system is ideal for alternating diameters without disassembling the entire tool.

Machined steel for increased durability

Each insert is made of **high-quality steel** to withstand the repeated stresses of lubrication. Its meticulous finish ensures optimal alignment with the bullet and prevents burrs or lubricant loss.

Supported calibers

- **.400** - for pistol or light rifle bullets
- **.445** and **.450** - commonly used in black powder
- **.459** - for .45 caliber long bullets
- **.500** - compatible with some large caliber rifles
- **.540** , **.547** , **.577** , **.580** - for heavy weapons or historical Enfield-type models

FAQ

- **Is this product compatible with all grease fittings?**
  No, only with **Pedersoli brand grease fittings** .

- **Is it necessary to buy one insert per caliber?**
  Yes, each insert corresponds to a **specific diameter** for optimal lubrication.
- **How do I identify my caliber?**
  Refer to the mold used or the exact diameter of the ball measured with calipers.
