Adjustable rear sight for historical rifles and precision reloading.

The **Pedersoli Sharps Sporting rear sight** is an adjustable sighting accessory designed for historical-style rifles or demanding sporting shooting. It allows for fine adjustment of height and guidance, for optimal aiming.

- **Brand:** Pedersoli
- **Type:** Adjustable rear sight
- **Compatibility:** Historical or modern rifles that accept rear sight mounting
- **Uses:** precision shooting, reenactment, shooting range

An essential accessory to refine your aim.

When aiming at long range or requiring historical accuracy, this adjustable rear sight is used to adjust elevation or windage. It mounts on a rifle with a suitable mount and allows for trajectory correction without modifying the barrel.

Fine adjustment for accurate shooting

The device allows for very precise adjustment of the rear sight height, which is essential for long-range shooting or with heavy projectiles. In practice, this improves concentration, shot repeatability, and therefore shot reliability.

Compatibility and easy assembly

It is important to check that the weapon has the necessary slots or grooves for installing this rear sight. For reenactments or historical firearms, this type of accessory helps maintain the spirit of the original while slightly improving accuracy.

FAQ

- **Is this visor universal?**
  It is compatible with rifles that have a suitable housing for a rear sight, but not guaranteed on all models without adaptation.
- **Do I need to make any adjustments after installation?**
  Yes, height and windage adjustment is recommended to adjust the aim according to the ammunition and distance.

- **Is this product suitable for historical reenactment?**
  Yes, it is perfectly suited for historical style rifles while offering modern precision aiming.
