### Barrier tape to mark your shooting angles or your game and gloves for skinning.

Never go hunting without flagging tape again. Keep it in your cartridge belt, pocket, bag, or car. It will no longer be a nuisance in your pocket alongside your leashes. Whether you're standing in a blind or driving a beater, having it will make blood tracking and the work of your game handlers much easier. Plus, you'll have a pair of latex gloves ready to skin your game.

- 2 container cartridges with:
  - 3 strips of 180 cm barrier tape
  - 1 pair of latex gloves

Its use is simple: Simply open your TAPE CARTRIDGE, unroll the appropriate tape and mark your dead or injured animal.

Then reload it with new strips, at the length of your choice.

It is safe, not suitable for a CAL 12 rifle.
