- **Magwell:** flared for rapid reloading
- **Target:** High-performance fiber optic, optic ready (RMR/SRO/Holosun 507C)
- **Treatment:** PVD coating on all main parts
- **Capacity:** 17 and 20 round magazines included

A weapon designed for competition

Developed in collaboration with American shooter **PIEWVIEW** , this 2011 model is built for pure performance. Thanks to its **4.6-inch barrel with compensator** , the Apache offers remarkable stability, even at high rates of fire. The **PVD coating** on all parts ensures optimal resistance to wear and scratches, and simplifies daily maintenance.

Machined slide and perfect ergonomics

The slider features **deep grip grooves** at the front and back, ensuring quick and secure handling. Combined with a **Kevlar and carbon fiber grip** , it provides a firm hold, even with gloves or under stressful conditions.

Optimized sighting devices

The Apache is equipped with a **high fiber optic sight** for instant target acquisition. Its **optic-ready** configuration makes it compatible with reflex optics such as **RMR** , **SRO** , or **Holosun 507C** , for rapid engagement in IPSC or TSV.

Adjustable trigger pull and responsiveness

The **straight, adjustable trigger** allows for customization to the shooter's preferences. It offers a **short travel and a crisp reset** , essential for accuracy and speed in competition.

FAQ

Is this model compatible with a red dot sight?

Yes, the Apache is **optic ready** and accepts **RMR, SRO** and **Holosun 507C** type optics without modification.

What maintenance is required for this gun?

Regular cleaning of the barrel, slide, and moving parts is recommended. The PVD coating facilitates this maintenance by preventing the accumulation of residue.
