- **Red dot** not included

A Commander version tailored for the terrain

The **Apache Commander** is a compact version of the original model, designed for those seeking an **accurate and reliable handgun** in a shorter format. With its **4.3-inch barrel** and lightweight slide, it offers excellent handling without compromising accuracy.

Modern military ergonomics

The **Kevlar and carbon fiber** grip ensures a firm and comfortable hold, even in demanding environments. The **flared magwell** facilitates rapid reloads under stress. The **ambidextrous safety** guarantees intuitive access regardless of dominant hand.

High aim and red dot compatibility

Fiber optic sights ensure excellent target acquisition in all conditions. Furthermore, the **optic-ready** mount is compatible with **RMR** -type sights for those who wish to further optimize responsiveness.

A finish designed to last

The anti-corrosion surface treatment of this model effectively protects against moisture, friction, and external damage. It ensures **easy maintenance** and extends the weapon's lifespan, while maintaining an impeccable appearance.

FAQ

What is the difference between the standard Apache and the Commander?

The Commander model features a **shorter barrel (4.3")** and a more compact size, ideal for duty configurations or shooters seeking greater maneuverability.

Can a red dot sight be mounted on this model?

Yes, the pistol is **optic ready** and directly accepts an **RMR** type sight (red dot not supplied).

Does this weapon come with multiple magazines?

Yes, the **WATCHTOWER Apache Commander** comes with **3 15-round magazines** in a carrying case.
