- **Magwell:** flared for rapid reloading
- **Target:** High-performance fiber optics, optic ready (RMR)
- **Treatment:** Reinforced anti-corrosion
- **Capacity:** Comes with 3 x 15-round magazines
- **Red Do** not supplied

A compact 2011 model with a distinctly military design

With its **FDE** finish, the Apache Commander stands out immediately. This sand tone, widely used in military equipment, not only provides a striking look but also **superior resistance** to the elements. Designed for shooters seeking a shorter format without sacrificing accuracy, it combines balance, stability, and responsiveness.

Canon 4.3'' and optimized slide

The **4.3-inch 416R steel barrel** ensures consistent accuracy, even during extended sessions. The machined slide features **deep serrations** for easy handling in all conditions-a valuable feature for sport shooting.

Aggressive grip and ambidextrous controls

The grip, a blend of **Kevlar and carbon fiber,** provides a firm and structured hold. The ambidextrous safety is immediately noticeable, smooth and easily accessible, ideal for both left- and right-handed users. The **flared magwell** adds significant reloading comfort, especially at high rates of fire.

High aim and red dot mount

The **fiber optic** sights provide a clear and rapid target acquisition. The **optic-ready** mount allows for the installation of an **RMR** -type sight for even more intuitive target acquisition-perfect for those looking to upgrade their setup (red dot not included).

Durable anti-corrosion treatment

The FDE finish benefits from an **anti-corrosion treatment** designed to resist humidity, repeated friction, and intensive handling. This essential protection preserves the firearm and simplifies its daily maintenance.

FAQ

What are the specific differences between the FDE model and the black version?

The **FDE** version offers a more resistant anti-corrosion sand finish and a more "duty" style, while retaining the mechanical performance of the Apache Commander.

Can a red dot sight be installed on the Commander FDE?

Yes, it is **optic ready** and accepts **RMR** -type optics. The red dot sight is not included with the weapon.

How many magazines are included with the weapon?

The **WATCHTOWER Apache Commander FDE** comes with **3 15-round magazines** in a carrying case.
