Personalize your VMP-2 with a bolder, all-metal control kit.

The Vorsk Fire Mechanism Dress Kit allows you to optimize and personalize the controls of your VMP-2 GBB with a complete set of metal levers, buttons and selectors, available in five colors.

- **Designed for VMP-2 GBB** : precise fit and intuitive installation.
- **Metal construction** : crisp feel and excellent durability.
- **Complete package** : selectors, magazine button, stop, side controls.
- **Available in 5 colours** : Black, Blue, Red, Purple, Silver.
- **Ideal customization** : improves grip and ergonomics.
- **Airsoft use only** : dedicated to Vorsk GBB replicas.

This Vorsk metal control kit brings a real upgrade to the VMP-2. Each piece enhances control and improves the mechanical feel during operation.

By adding these improved controls, you get a more direct tactile feedback, ideal for users wishing to optimize their ergonomics without modifying the internal structure of their replica.

The **Vorsk Fire Mechanism Dress Kit** offers a complete set of external controls for the **VMP-2 GBB** , providing both aesthetic and functional customization. Designed for a secure fit, it improves handling and comfort during gameplay.

Box contents

- Metal control levers
- Ambidextrous selectors
- Charger release button
- Cylinder head stop
- Connecting parts and screws

FAQ

Is this kit compatible with replicas other than the VMP-2?

No, it is specifically designed for the VMP-2 GBB series.

Do the parts improve the responsiveness of orders?

Yes, the metal construction provides a more direct feedback and a better mechanical feel.

Is an internal modification necessary?

No, the parts fit directly as replacements for the original controls.

Does the kit include all the necessary screws?

Yes, the supplied components allow for a complete installation.

Are the colors anodized or painted?

Depending on the color, the finishes are treated to offer durability suitable for airsoft use.
