PCKLIPOTDEAN	7.4V - T-Dean	Vente libre	10	1.7	80	1.1	7.4	LiPo	29.90 € incl. tax

Two complete configurations to adapt your responsiveness and autonomy to each replica.

This page offers **two distinct BO LiPo battery packs** , each including a **microprocessor-controlled automatic balance charger** . The charger is identical for both versions; only the battery configuration differs to suit the desired electrical performance of your airsoft replica.

- **7.4V LiPo pack:** 2S 1000mAh stick format battery + BO3 charger
- **11.1V LiPo pack:** 3S 1000mAh stick format battery + BO3 charger
- **Automatic balanced charging:** intelligent microprocessor-controlled management
- **Connector:** Mini Tamiya

This **7.4V LiPo airsoft battery pack** is ideal for players seeking a balanced and durable solution. The **BO3 microprocessor-controlled balance charger** automatically adjusts current and voltage to maintain cell stability over the long term.

Box contents
