LE885	Roller Handle Upgrade for Six Pack/Classic Series Presses #92040	Vente libre	62.00 € incl. tax

Ergonomic roller handle for extended reloading without fatigue.

The **ergonomic Lee handle** is designed to improve user comfort with the **Six Pack Pro, Classic Turret, and Classic Cast presses** . Its curved shape reduces strain and relieves posture during long reloading sessions.

- **Compatibility:** Six Pack Pro, Classic Turret, Classic Cast
- **Shape:** angled with optimized angle
- **Material:** High-strength tubular steel
- **Handle:** turned wood, natural finish
- **Installation:** direct replacement of the original handle

A handle designed for long-term comfort

The **Big Press Roller Handle** is the natural evolution of the traditional ball handle. Its ergonomic shape with **integrated curvature** prevents bending or twisting when lowering the lever, offering a straighter and less tiring posture, especially on long and repeated cycles.

Robust and balanced construction

Made from **high-strength tubular steel** , this handle combines strength and lightness. Its balanced design reduces the risk of pinching or slipping. The turned natural wood handle ensures a comfortable and effective grip, even under heavy manual pressure.

Compatible with Lee long lever models

It easily installs on the **Six Pack Pro** (Pro 6000), **Classic Turret** and **Classic Cast** presses. It directly replaces the original ball handle, without modification, and proves particularly useful for regular reloaders or those handling high-strength **Magnum cases** .

FAQ

Is this handle compatible with the Load-Master press?

No, it is only compatible with the Six Pack Pro, Classic Turret and Classic Cast models.

Can it be assembled without any special tools?

Yes, the replacement is done simply using a standard wrench, without modification of the press.

Is the wooden handle replaceable?

No, it is permanently fixed to the tubular lever and not available separately.
