LE903	LEE, ENTONNOIR A DOUILLES 5 TUBES UNIVERSAL CASE COLLATOR #92059	Vente libre	29.00 € incl. tax

Fill your tubes quickly and efficiently without reversing cartons.

The **Lee Universal Case Collator** optimizes the filling of the **5-tube feed magazine** for automatic presses. It prevents case reversal and increases throughput thanks to its extended capacity.

- **Compatibility:** APP, Pro 1000, Pro 4000, Load-Master, Six Pack Pro
- **Capacity:** 40% greater than a standard collator
- **Case diverter:** prevents inversions during loading
- **Perforated mask:** align the shortest cases upside down
- **Efficiency:** time savings on reloading cycles

An immediate time saving on your reloading cycles

The **Lee Universal Case Collator** attaches to the **5-tube feed magazine** to automate case filling in progressive presses. Thanks to its **agitator fins** , cases slide quickly into the tubes without individual handling.

Compatible with the entire Lee automatic range

Works perfectly with **APP** , **Deluxe APP** , **Pro 1000** , **Pro 4000** , **Load-Master** and **Six Pack Pro** presses. Simply place it on top of the **case feed magazine** to get started.

Anti-inversion case system

The **case diverter** prevents cases from turning around. For small calibers like the **.223 Remington** , the included drilling mask ensures consistent head-down orientation for smooth operation.

Extended capacity for fewer recharges

With a **capacity 40% greater** than the previous model, this collator reduces the frequency of refilling and streamlines your reloading sessions, even on long series.

FAQ

Is this collator compatible with the Six Pack Pro press?

Yes, it is compatible with the Six Pack Pro press as well as all progressive presses in the Lee range using the 5-tube case feed.

Can it be used with small caliber cases like the .223?

Yes, the perforated mask allows for bottom-mounted positioning of small caliber cases like the .223 Remington.
