LYM295	Lyman Turbo Brite Brass Polish	Vente libre	142	23.00 € incl. tax

Mirror finish for your sockets with a simple addition to the media.

Lyman Turbo Brite Brass Polish is a cleaning additive designed to restore shine and luster to cases when passing through the tumbler, with treated or untreated media.

- **Use:** Additive for **Corncob** or **nutshell** media
- **Compatibility:** Works with **processed or unprocessed media**
- **Effect:** Improves **shine** and finish
- **Application:** directly into the tumbler with the media

A polish designed for all media

Turbo Brite is designed to work with both **treated** and **raw** media made from walnut or corncob shells. Just a few drops are enough to transform the look of your cases and restore their original shine.

Extremely simple to use

Simply add a small amount of polish directly to your tumbler along with the media. Start the cycle and let the chemistry work. In just a few dozen minutes, your cases will come out shiny, without any greasy residue or buildup.

Professional finishing at home

Perfect for demanding reloaders or shooters wanting a flawless visual appearance, this polish is ideal for improving the visibility of any cracks, dents or wear on cases.

FAQ

Can I use this polish with treated media?

Yes, **Turbo Brite** is compatible with all types of media, whether processed or not.

How much polish should I use?

A few drops are enough, about a teaspoon for a standard cycle with a full tumbler.
