Ideal for woodcock hunting, this cartridge ensures a wide and progressive pattern at short range.

The **FOB Special Woodcock** cartridge is designed for shooting in the undergrowth, where responsiveness and respect for the game are paramount.

- **Caliber** : 12/70
- **Lead type** : Mixture no. 7¾ and no. 9¾
- **Load** : 35 g
- **Padding** : Half-skirt
- **Speed** : 385 m/s (at 0 m)
- **Packaging** : Box of 10 cartridges

A cartridge designed for woodcock specialists

In damp, dense undergrowth, woodcock hunting demands responsive, accurate ammunition that strikes a good balance between effectiveness and a softer impact. This is precisely what the **FOB Special Woodcock 12/70** offers.

- **Bi-layer mixture of shot** : the #7¾ ensure percussion, the #9¾ guarantee homogeneous coverage without damaging the flesh.
- **Half-skirt wadding** : promotes controlled dispersion to reach the woodcock from the first few meters.
- **Initial velocity of 385 m/s** : a fast start that supports short-range reflex shots.

The ballistic performance of this cartridge is distinguished by its ability to **create a progressive shot pattern** , perfectly suited to instinctive hunting. The loading structure allows the larger shot to push the smaller ones, generating a dense and fluid cloud. This mechanism is valued for its ability

to hit without damaging the shot, especially on a bird as sensitive as the woodcock.

In practice, this ammunition meets the demands of both purists and amateurs, with a genuine focus on hunting ethics. A cartridge to rediscover season after season.

FAQ - Frequently Asked Questions

Is this cartridge suitable for other game?

It is optimized for woodcock, but can be suitable for small game in enclosed areas.

Can it be used in all 12 gauge shotguns?

Yes, if the rifle is chambered in 70 mm.

What level of effective reach can we expect?

Ideal between 10 and 25 meters.

Is it a subsonic munition?

No, its speed exceeds 340 m/s.
