A high-performance moderator for semi-automatic rifle hunting.

The **Stalon X-Venti** is a **sound moderator** designed for **hunting with gas-operated semi-automatic rifles** . **The X-Venti** allows the sound moderator to be mounted without having to adjust the gas system.

- **Noise reduction:** up to -28 dB
- **Use:** semi-automatic hunting rifle
- **Operation:** without modification of the gas system
- **Length over the barrel** : 133.5 mm - **front of barrel** : 108 mm
- **Design:** internal telescopic structure
- **Materials** : anodized aluminum + stainless steel baffle

A silencer designed for hunting with a semi-automatic rifle.

The **Stalon X-Venti** was specifically developed for gas-operated **semi-automatic hunting rifles** . It provides an **average noise reduction of 28 dB** , while maintaining a reliable and consistent reloading cycle, without any modification to the rifle's mechanics.

Reliable operation without modification

Thanks to its internal design, the X-Venti channels some of the gases forward, limiting their impact on the mechanism. This design allows for use **without adjustment or modification of the gas system** , a major advantage for hunters wishing to keep their firearm in its original configuration.

Suitable for common hunting calibers

Compatible with calibers from **.30 to .375** , this suppressor is particularly well-suited to hunting ammunition such as the **.30-06 Springfield** , widely used in France for driven hunts and stalking big game. It contributes to **improved hearing comfort** and a **reduction in perceived recoil** .

Comfort and control during hunting activities

During driven hunts or active hunts, the X-Venti improves **weapon control** after firing, reduces hearing fatigue, and promotes better concentration. A valuable asset during long hunting days or in noisy environments.

FAQ

Is this silencer suitable for hunting?

Yes, the Stalon X-Venti is designed exclusively for use in hunting with semi-automatic rifles.

Should the rifle's gas system be modified?

No, the X-Venti works without any modification or adjustment of the gas system.

What hunting calibers is it compatible with?

It is compatible with calibers from .30 to .375, including the .30-06 Springfield.
