High capacity 3V battery for Canicalm and Canibeep collars.

The **NUM'AXES CR123 lithium battery** delivers a voltage of 3V with a capacity of 1400mAh. It is compatible with the brand's **anti-barking and audible tracking collars**.

- **Technology:** lithium
- **Voltage:** 3V
- **Capacity:** 1400 mAh
- **Equivalents:** 123, CR123, CR123A, CR17345, DL123, EL123AP
- **Packaging:** blister pack containing 1 battery
- **Compatibility:** Canicalm, Canibeep Pro, Canibeep Radio Pro

A discreet but essential battery

The **NUM'AXES CR2032 lithium** is a compact button cell battery delivering a **voltage of 3 volts** with a capacity of **210 to 220 mAh**. It is designed to power devices requiring low power but stable battery life, such as **EYENIMAL smart accessories** or **compact remote controls**.

Compatible with several products from the brand

It is used in:

- **Remote controls:** Canicom Soft
- **Light-up necklaces:** EYENIMAL Light Collars
- **Smart pet bowls:** EYENIMAL Intelligent Pet Bowl XL

Easy to install, it offers excellent long-term reliability, even with frequent use.

CR2032 Universal Button Format

This format is a widely used standard in compact electronic devices. **Lithium** technology allows for very slow self-discharge, making it a suitable choice for devices used occasionally or for extended standby time.

FAQ

Is the battery compatible with EYENIMAL light-up necklaces?

Yes, the CR2032 battery is specifically used in EYENIMAL Light Collars.

Is it a rechargeable battery?

No, it is a single-use button cell battery using lithium technology.

What is its lifespan in a Canicom remote control?

It offers several months of battery life depending on the intensity and frequency of use.
