- **Modes:** audible beep, stimulation (5 levels)
- **Battery life:** 50,000 activations
- **Waterproofing:** against runoff
- **Weight:** 40 g (with battery)
- **Dimensions:** 96 x 40 x 18 mm
- **Power supply:** 1 CR2430 3V battery (included)
- **Compatibility:** Canicom collars (ref. PFDRESTI043 to 046)

Canicom 200 First: the intuitive and efficient remote control

The **Canicom 200 First remote control** is designed to operate a **Canicom training collar** remotely, up to **200 meters** in open field. It stands out for its ease of use, with **numbered buttons** corresponding to each level of stimulation, and a clearly identifiable sound button.

Two basic functions for progressive education

This remote control offers two types of correction:

- **Warning beep** to alert before correction
- **Adjustable electrostatic stimulation** with **5 levels** to adapt to the dog's sensitivity

It is perfectly suited for family use or as a first training equipment.

Lightweight, compact and reliable

Weighing only **40g** including the battery, the Canicom 200 First fits easily into any pocket. Its compact design (96 x 40 x 18 mm) is designed for quick and easy handling. Splash-proof, it withstands moderate outdoor conditions.

Compatible with all Canicom collars

This remote control works with all of the following **Canicom receivers** :

- **Canicom black strap** - ref. PFDRESTI044

- **Canicom yellow strap** - ref. PFDRESTI045
- **Canicom orange strap** - ref. PFDRESTI046
- **Canicom blue strap** - ref. PFDRESTI043

Coding the remote control and the collar is simple (see user guide). It is possible to recode at any time using the same or a new remote control.

Contents of the box

- **1 Canicom 200 First remote control**
- **1 CR2430 lithium battery**
- **1 wrist strap**
- **1 user guide**

FAQ

Can I use this remote control with a Canicom 5 collar?

No, the **Canicom 200 First** is only compatible with receivers from the **Canicom** range, and not **Canicom 5** .

Do I need to code the collar with the remote control?

Yes, a **coding step is required** to pair the remote control with the collar. This operation is simple and reversible.

How many collars can she control?

This model allows control **of only one collar** at a time.
