Upgradeable remote control with LCD screen and 9 levels of stimulation.

The **Canicom 200 remote control** allows you to precisely control a **Canicom** training collar up to 200 meters away thanks to its LCD screen and 9 adjustable levels.

- **Range:** up to 200 m
- **Modes:** audible beep, stimulation (9 levels)
- **Screen:** Backlit LCD
- **Battery life:** 50,000 activations
- **Waterproofing:** against runoff
- **Weight:** 50 g (with battery)
- **Dimensions:** 98 x 45 x 18 mm
- **Power supply:** 1 CR2430 3V battery (included)
- **Compatibility:** Canicom collars (ref. PFDRESTI043 to 046)

Canicom 200: the versatile remote control with digital display

The **Canicom 200 remote control** is a complete training solution, allowing you to control a **Canicom collar** up to **200m away** . Its main advantage: a **clear LCD screen** that makes it easy to adjust stimulation levels and monitor in real time.

Simple and adaptable functions

It includes:

- **Audible warning** to alert before any stimulation
- **Adjustable electrostatic stimulation** across **9 levels**

Thanks to its dedicated buttons, switching between levels is smooth and instantaneous. The settings can therefore be adjusted over the course of sessions or according to the dog's responsiveness.

Compact and robust design

Weighing just **50g** (battery included) and measuring **98 x 45 x 18 mm** , it fits comfortably in the hand and is easy to carry. It is **also splash-proof** , making it perfectly suited for outdoor activities.

Fully compatible with Canicom collars

The Canicom 200 remote control works with all **Canicom receivers** :

- **Canicom black strap** - ref. PFDRESTI044
- **Canicom yellow strap** - ref. PFDRESTI045
- **Canicom orange strap** - ref. PFDRESTI046
- **Canicom blue strap** - ref. PFDRESTI043

The coding procedure is simple, reversible and detailed in the provided guide.

Package contents

- **1 Canicom 200 remote control**
- **1 CR2430 lithium battery**
- **1 wrist strap**
- **1 user guide**

FAQ

Can this remote control work with Canicom First?

No, the **Canicom 200** is only compatible with standard Canicom collars (ref. PFDRESTI043 to 046). It is not compatible with the First or Canicom 5 versions.

What is the advantage of the screen compared to the Canicom 200 First?

The LCD screen allows for **more precise adjustment** of the stimulation level and better visibility during use, which is particularly useful for progressive training sessions.

Do we need to recode the remote control if we change the battery?

No, the coding is retained even after battery replacement, except in the case of a deliberate reset.
