- **Range:** up to 200 m
- **Modes:** beep, short or long vibration, LED
- **Waterproofing:** against runoff
- **Battery life:** up to 6 months in standby mode
- **Weight:** 36 g (with battery)
- **Dimensions:** 98 x 42 x 17 mm
- **Power supply:** 1 CR2032 3V battery (included)
- **Compatibility:** Canicom Soft collar

Canicom Soft: the remote control designed for gentle training

The **Canicom Soft remote control** allows you to operate a **Canicom Soft collar** from a maximum distance of **200 meters**. It offers a gentle approach to training, ideal for young, sensitive, or hearing-impaired dogs.

Three modes without electrostimulation

This remote control incorporates several soft signals:

- **Beeping sound** : to attract the dog's attention
- **Short or long vibration** : a painless physical signal
- **High-intensity LED flash** : useful in low light or for visual signaling

Navigating between functions is simple, with separate buttons for each mode.

Compact, waterproof and lightweight

Weighing just **36g** (battery included), the remote control is **ultra-light** and **splash-proof**, making it ideal for outdoor use in all weather conditions. Its compact size (98 x 42 x 17 mm) ensures quick and intuitive handling.

Optimized battery life

It is powered by a supplied **CR2032 battery** , offering **6 months of standby time** and approximately **1.5 months of intensive use** . Perfect for regular training cycles without the need for frequent battery replacements.

FAQ

Does this remote control work with a standard Canicom collar?

No, the **Canicom Soft** is only compatible with the **Canicom Soft collar** , and not with the electrostatic models in the Canicom or Canicom 5 range.

Can the remote control be used for multiple dogs?

No, this model controls **only one Canicom Soft collar** at a time.

Which dogs can benefit from this system?

It is perfectly suited for **sensitive, young or deaf dogs** , for respectful and painless training.
