Replacement cap to secure the battery of the Canicalm First collar.

The **Num'Axes battery cap** is designed to ensure the protection and proper retention of the battery on **Canicalm First** collars.

- **Compatibility:** Canicalm First anti-barking collar
- **Function:** Battery maintenance and protection
- **Fixing:** simple screw fastening
- **Material:** Durable plastic
- **Use:** Prevents false contacts and unwanted discharges

An essential cap for the proper functioning of the Canicalm First

This **battery cap** is specifically designed for the **Canicalm First** anti-barking collar. It screws onto the back of the casing to **secure the CR2450 battery** and ensure a stable connection between the power supply and the internal electronics.

Prevents faulty connections and energy loss

If the original cap is worn or lost, the collar may malfunction or fail to turn on. This cap prevents **accidental discharge** , **poor connections** , and protects the battery from dirt and moisture.

Easy to install, robust and discreet

Made from durable **engineering plastic** , it screws on without tools and **extends the collar's lifespan** . Its compact shape maintains the original design of the device. It's the ideal replacement part for equipment replacement or maintenance.

FAQ

Is this cap compatible with other Canicalm collars?

No, this cap is designed **only for the Canicalm First model** . For other models, please choose the appropriate cap.

Can it be screwed in without a special tool?

Yes, the cap is designed to be screwed on by hand. No tools are required for installation or removal.

What exactly is the purpose of this cap?

It serves to **hold the battery in place** and to **protect the battery compartment** of the Canicalm First collar from moisture, shocks and unstable contacts.
