Optimal battery maintenance in your portable electronic devices.

The **Num'Axes battery cap** ensures a reliable connection of batteries in your portable **electronic devices** .

- **Function:** Battery maintenance and protection
- **Use:** Prevents loss of contact and battery drain
- **Attachment:** simple adjustment onto the battery terminal
- **Compatibility:** Standard batteries used in portable devices
- **Format:** compact and lightweight

A simple but essential accessory

The **Num'Axes battery cap** is designed to prevent unexpected power outages caused by an improperly inserted or secured battery. It fits directly onto the **button or cylindrical battery** , depending on the device model, ensuring a **continuous and secure connection** .

Versatile and easy to use

This plug fits most **portable electronic devices** that use standard batteries. Simply push it onto the battery, like a cap, to maintain contact pressure. It is especially useful for equipment used outdoors or subject to vibration.

Easy to carry

Compact, lightweight, and discreet, it easily slips into a **bag, field kit, or pocket** . It becomes an indispensable accessory for troubleshooting or replacing a lost or worn original cap.

FAQ

Is this cap compatible with all Num'Axes devices?

It is primarily designed for **devices using button or cylindrical batteries** . Compatibility depends on the model, but it is suitable for systems where the battery needs to be mechanically held in place.

Is it necessary for all devices?

No, only for devices whose original cap is lost, damaged or insufficient to guarantee battery retention.

Can the cap be reused?

Yes, it is **reusable** at will and designed to **withstand frequent handling** .
