## Num'Axes Screw for Canibeep Pro collar

The **set of 4 Num'Axes screws for Canibeep Pro collars** allows you to easily replace lost or damaged screws on **Canibeep Pro** and **Canibeep Radio Pro** collars.

- **Compatibility:** Canibeep Pro and Canibeep Radio Pro
- **Quantity:** 4 screws
- **Installation:** simple and quick
- **Material:** Durable treated steel
- **Function:** securing the collar cover

### An essential accessory for collar maintenance

When a screw gets lost or damaged, it's often at the worst possible time: before a ride or during a training session. With this **set of Num'Axes replacement screws** , you're ready to react quickly. These screws ensure the **secure closure of the collar housing** , preventing any malfunctions during use.

### Designed to last

Made from **treated steel** , these screws offer excellent resistance to wear, moisture, and impact. Once installed, they provide a secure hold, even in harsh conditions. Whether replacing a missing screw or simply being prepared, this set proves very useful in the long run.

### Perfect compatibility

Each screw is designed to **fit precisely** into the threads of the **Canibeep Pro** and **Canibeep Radio Pro** collars. No adjustments or special tools are required. A direct and reliable solution, validated by the brand itself.

### FAQ

**Are these screws compatible with the Canibeep Radio Pro collar?**

Yes, they are designed to be used with both the Canibeep Pro and the Canibeep Radio Pro.

**How many screws are included in the set?**

The set includes 4 replacement screws.

**Do I need a special tool to install these screws?**

No, the installation is done with a standard screwdriver compatible with the screw format.
