6V power supply compatible with several Num'Axes trail cameras.

The **Num'Axes power supply** allows you to power your **trail cameras** directly from mains power for continuous operation, without batteries. Use: indoors or outdoors (protected from moisture). Cable length: approx. 1 m. Connector: standard plug for Num'Axes cameras.

Carefully check the compatibility and voltage of your camera trap.

NUM570 power supply:

- **Voltage:** 6V
- **Compatibility:** PIE1035

NUM575 power supply:

- **Voltage:** 6V
- **Compatibility:** PIE1035, PIE1044, PIE1045, PIE1048, PIE1066

NUM580 power supply:

- **Voltage:** 12V - 2A - 24W
- **Compatibility:** PIE1023, PIE1037, PIE1046, PIE1051, PIE1052

Stable power supply for long battery life

Designed for the brand's **6V trail cameras** , this power supply ensures a **constant power supply** for extended, uninterrupted captures. No more monitoring battery levels or changing batteries: just plug it in and let it run.

Compatible with multiple models

This block is perfectly suited to models **PIE1035** , **PIE1044** , **PIE1045** , **PIE1048** and **PIE1066** . Its connector is designed to fit the socket provided on these devices without the need for an additional adapter.

Practical and economical use

This power supply unit is the ideal solution for fixed monitoring stations located near a building or in a secure shelter. It allows you to **save on batteries** while reducing the risk of power failure during peak monitoring periods.

FAQ

Is this charger compatible with the PIE1048 trap?

Yes, this power supply is compatible with the PIE1048 model as well as other 6V models.

Can it be used outdoors?

It is advisable to use it away from moisture, in a shelter or indoors, to guarantee its longevity.

Does this charger replace the trap's batteries?

Yes, it allows the trap to be powered without using the internal batteries, for extended use on mains power.
